

Dinoraptor101™

By Digital's Organization®

My name:

I have many names, and each suits a certain character.

Dave Marksmen: *A decent personality, paleontology is his work and study; he dedicated his life to dinosaurs.*

David Cybermen: *A world wide traveler who aimed to learn and understand humanity, Philosophy is his main language, His next destination goes to U.S.A.; he is a big fan of "Vitas" the Russian singer.*

Damien Digital's: *An official of the unofficial organization; **CBD** (chairman of board of directors) of the "**Digital's Organization**"*

A lone wolf, a man with a deep reach to soul and mind, most passionate to music he makes, which has a special affection on others.

Dinoraptor101: *A virtual character created to bond all the limits of human perfection.*

(Not being best, but to be equal)

A Multiple character gifted in Computer Science, Philosophy, Psychology, Singing, and Music.

This virtual and yet real Personality is lazy at times, but once inspired flourishes with unfound knowledge of the hidden worlds

*Details on **Dinoraptor101**:*

Dinoraptor101 (Symbolizes):

Such human who can think of all possibilities in every act is eventually possible to exist.

*The **Dinoraptor101** Character as basically created to contact over the internet, **Dinoraptor101** can examine the question philosophically from various perspectives, coming up with unquestionable result; with his late technology, **Dinoraptor101** can answer almost any non-human related knowledge question.*

*Normally it takes years for an average human to solve a single wonder that **Dinoraptor101** can solve in less than a week.*

For Example:

Question: What is GOD, and why it exists?

Answer-1: GOD is a metaphor calling, an Idea generated from humans' loneliness and hopelessness

Humans, always want to be together and never be alone when in trouble, they want to tell their pain and ask for help. Unfortunately, since human relations are not based on trust of each other, they need something that which can be trusted, something that will not tell your secrets. In addition, will help you in life... so when you communicate with GOD, your inner self gets partly satisfied and things get better and better when you feel more happiness in your heart!

Answer-2: GOD is the source of existence.

Is a multi objected "System of things". The perfect system that generates a chain of perfection creating the smallest parts of your material things, to the most complicated equations of time and space!

Answer-2.1: Why it exists? ("It" referred to GOD)

It exists as long as the people want bad and good to be part of their lives, there will always be a "Best (GOD)" and a "Worst (Devil)"

Answer-2.2: To maintain a hidden control of ourselves that guides us when we are lost and/or confused in a choice; to give us a meaning of life and grant us our wishes when we truly ask.

Dinoraptor101 (Emergence)

*I first invented **Dinoraptor101** as a Velociraptor (A Type of Dinosaur / Raptor)*

*Truly, it was an updated version of my old story hero "**V-rap**", the story was later destroyed in an accident.*

It symbolizes the perfect life-form.

*Where V-rap (**Dinoraptor101**) had to choose to wither be the best in doing a single choice*

Or be able to do everything but not being best in any.

His adventures went through my papers and many stories; I have spent precious time on writing them.

*Now **Dinoraptor101** is acting as an act of virtuosity of my mind,*

A reflection of the perfect me; something that can answer most questions that go

Beyond standards and material equations

*If you ever have questions of which you need to figure out, **Dinoraptor101** can help you.*

*Sending an e-mail to the address bellow, with that certain subject title; you can ask or tell **Dinoraptor101** anything.*

Breath deep, seek peace

E-mail: digitals.organzation101@gmail.com

*Subject: "Forward To **Dinoraptor101**"*
